

Acoustic cabinet fans manufactured from heavy gauge galvanised steel sheet and internally lined with 50 mm thickness of fireproof acoustic fiberglass insulation (M0). Fan cover supplied with "quick-fix" fixings to enable fast removal and fitting, and a tight close. All models incorporate single phase direct-drive forward curved centrifugal fan. All fans installed in acoustic cabinet fans CAB comply with the efficiency requirements of the ErP Directive.

All cabinets can be installed outdoors as standard.  
Available, depending upon the model, with single motors in 2 or 4 poles.

**Motors**

- From CAB-100 to CAB-250N, motors are IP44, class B with ball bearings and thermal protection.
- CAB-315 RE model is fitted with an IP44 class F motor with ball bearings and thermal protection.
- CAB-355 RE and 400 RE models are fitted with an IP55 class F motor with ball bearings and thermal protection.

Electrical supply:

- Single-phase 230V 50/60Hz from CAB-100 to 160
- Single-phase 230V 50Hz from CAB-200 to 400 RE

Speed controllable using voltage regulation.

Working temperature from -20°C to +40°C.

**Low noise level**

Acoustic insulation of 50 mm thickness fireproof fibreglass (M0) with a high resistance coating reducing the noise level significantly.

**Cabinet air tightness**

All models incorporate inlet and discharge circular duct connection flanges with integrated rubber air seal.

**IP55**

**remote terminal box**

To ease installation and connection to external controls.

**Easy maintenance**

"Quick fix" fixings to enable a fast and easy maintenance.

**Easy to install**

All models are supplied with four mounting feet to facilitate any ceiling, wall or floor mounting installation.

**Installation in any position**

Can be mounted in vertical, horizontal or inverted position.

**TECHNICAL CHARACTERISTICS**

Before installation check that the product electrical characteristics listed on the data plate label (voltage, power, frequency, etc.) match those of the intended electrical supply.

**PERFORMANCE CURVES**

- $q_v$ : Airflow in  $m^3/h$ .
- $p_{sf}$ : Static pressure in Pa.
- Dry air at 20°C and 760 mmHg.
- Performance data in accordance with ISO 5801 and AMCA 210-99 Standards.
- SFP: Specific fan power in  $W/m^3/s$  (blue curves).

CAB-400 RE

**MOUNTING ACCESSORIES**

**MBE**  
 Electric heater.

**MBW**  
 Hot water coil.

**MFL-G4**  
 Filtration boxes.

**SIL**  
 Sound attenuators.

**ACOPEL F400 N**  
 Circular flexible connector.

**APC**  
 Discharge protection guards for direct connection to the inlet-outlet flange. (please see pages Mounting Accessories).

**KSE-45**  
**Flexible supports**  
 Rubber anti-vibration mounts to reduce vibration and noise transmission to the installation. (1KSE = set of 4 supports per bag).

**CAR**  
 Circular back draft shutters.

**ELECTRICAL ACCESSORIES**

**REB-1N / REB-1NE**  
**REB-2,5N / REB-2,5NE**  
 Electronic, single phase speed controllers.

**RMB-1,5**  
 Auto transformer single phase speed controllers.

**ON/OFF**  
**IP55 SWITCH**

**PULSER**  
 Single phase/three phase electric heater controller.

**TG-K330**  
 Duct temperature sensor.  
**TG-R530**  
 Room temperature sensor.

**TTC-2000**  
**TTC-2000 + TTS-1**  
 Three phase electric heater controller. The TTC-2000 needs an external temperature sensor to control the heater (TG-K330 or TG-R530).
