### The deluxe radio chime for "unlimited" use

#### Functions

- Distance booster: You can get any range you like by linking several transmitter/receiver combinations
- 17 appealing polyphone melodies (2/3 tone, Westminster, pop, classical, special tone sequence for people with hearing difficulties etc.) and SILENCE function with LED indicator
- ALARM function with DIN emergency tone for special situations
- User-friendly selection of melodies and 500 mJ flashing light at the touch of a button. *easyTIP* system
- Water-proof combination transmitter button with nameplate and LED transmission indicator
- 13 different paging signals for optimum access control
- Central paging: several receivers can be controlled from a single transmitter
- Individual paging: each receiver can be controlled individually from additional transmitters
- Matrix paging: combined central, individual paging is possible
- Transmitter/Receiver pre-programmed at the factory.

#### Installation

- Receiver: can be set up on a surface, hung up or screwed into place; transmitter: can be screwed into place or hung up with a clip
- Compatible with almost all intercom and doorbell systems (page forwarding as standard feature)
- Control unit easily accessible

#### Technical data

- Range: 250 m, transmission frequency: 868.35 MHz
- Walls, doors, metal parts etc. may significantly reduce the range!
- Where required, use distance booster through the installation of further radio sets.
- Volume max. 86 dB(A), infinitely adjustable
- Receiver: 4 x 1.5V (model LR14/C, alkaline baby cell, not in scope of delivery) or 8–12 V=~/~ (socket+terminal; reverse polarity protected)
- Transmitter: round cell, incl. in scope of delivery or terminal for 8–12 V=
- receiver: 150 x 115 x 38 mm, transmitter: 35 x 96 x 16 mm
