**Coding Pin**

	<b>09 33 000 9954</b>
--	-----------------------

\* on the back crimp collar

To avoid accidental incorrect mating of adjacent connectors a coding system is required. Coding is effected – by means of a code pin. For this reason a female contact has to be inserted into the selected chamber. The code pin has to be assembled into this contact from the mating side. The opposite male contact is omitted.
