LANmark Industry Copper cables

LANMARK INDUSTRY S/FTP AWG23 CAT 6A LSZH CCA ORANGE + PE FCA BLACK 500M REEL

Aginode Ref: N10i.005-OCKF

- For installation in industrial premises
- High shielding performance for harsh environments
- Enhanced mechanical properties
- Designed to support industrial Ethernet based automation
- Optimised for use with LANmark connectors
- PE outer jacket
- LSZH inner jacket with enhanced reaction-to-fire performance according to CPR classification Cca-s1a,d1,a1 (h/EN50575:2014+A1:2016)

The high performing LANmark Industry S/FTP LSZH + PE cables meet or exceed all Category 6A parameters. They comply with the electrical and mechanical requirements of the ISO/IEC 11801-3:2017 standard for industrial premises and with the MICE rating for environmental conditions.

When terminating the cable with LANmark-6A connectors, the Class EA Permanent Link requirements of ISO/IEC 11801 are met.

When used with LANmark-6 connectivity, optimal headroom to 250MHz Class E performance is ensured.

The cables offer a protective PE sheath which is water, UV and moisture resistant. They can be installed outdoors in ducts and are suitable for use indoors when the PE sheath is removed.

This cable version is made with an inner LSZH jacket complying with enhanced reaction-to-fire performance Ccasla,dl,al according to the European CPR classification. The cable with its outer PE jacket is classified Fca.

Application

STANDARDS

EN 50173 EN 50288-4-1 IEC 61156-5 IEEE 802.3bt (PoE++) ISO/IEC 11801 ISO/IEC 24702

All drawings, designs, specifications, plans and particulars of weights, size and dimensions contained in the technical or commercial documentation of Aginode is indicative only and shall not be binding on Aginode or be treated as constituting a representation on the part of Aginode.

LANmark Industry S/FTP LSZH + PE cables will support industrial Ethernet applications as well as high speed data applications.

- 10Base-T,
- 100 Base-T
- 1GBase-T
- 10GBase-T
- Industrial Ethernet

All drawings, designs, specifications, plans and particulars of weights, size and dimensions contained in the technical or commercial documentation of Aginode is indicative only and shall not be binding on Aginode or be treated as constituting a representation on the part of Aginode.

Screening

LANmark Industry S/FTP LSZH + PE cables consist of individually screened pairs, bundled by an overall braid. They comply with the EMC requirements for screened cables and show excellent transfer impedance values. They are designed for electrically noisy environments.

Transfer impedance (Grade 1)

- 10mOhm/m at 1 MHz
- 10mOhm/m at 10 MHz
- 30mOhm/m at 30 MHZ
- 60mOhm/m at 100 MHz

All drawings, designs, specifications, plans and particulars of weights, size and dimensions contained in the technical or commercial documentation of Aginode is indicative only and shall not be binding on Aginode or be treated as constituting a representation on the part of Aginode.

Characteristics

Construction characteristics	
Outer sheath	PE
Sheath colour	Orange / Black
Halogen free	Yes
Lead free	Yes
Inner sheath	Low smoke, zero halogen thermoplastic compound
Type of cable	S/FTP
Individual screen	Aluminium / Polyester tape
Overall screen	Tinned copper braid
Dimensional characteristics	
Approximate weight	66 kg/km
Outer Diameter	9.2 mm
Number of pairs	4
Conductor cross-section (AWG/KCMIL)	23
Diameter over insulation	1.2 mm
Electrical characteristics	
Mutual capacitance	56 nF/km
Maximal operating frequency	600 MHz
Characteristic impedance	100 Ohm
Max. DC resistance of the conductor at 20°C	95 Ohm/km
Mechanical characteristics	
Maximum permanent tensile load	0.1 kN
Maximum pulling force by laying	0.12 kN
Transmission characteristics	
Skew	25 ns/100m
Nominal Velocity of Propagation (NVP)	82 %

All drawings, designs, specifications, plans and particulars of weights, size and dimensions contained in the technical or commercial documentation of Aginode is indicative only and shall not be binding on Aginode or be treated as constituting a representation on the part of Aginode.

Generated 03/02/2025 www.aginode.net Page 4/5

Coupling atte	nuation at 30 MHz	80 dB
Propagation of	delay, max. 100 MHz	535 ns/100m
Usage characte	ristics	
Electro magn	etic interference resistance	Yes
Field of applic	cation	Fixed installations
Length		500 m
Operating ter	nperature, range	-2070 °C
Silicone free		Yes
Category		Cat. 6A
Fire load		700 MJ/km
Flame retarda	ant	IEC 60332-1
Packaging		Reel
Ambient insta	allation temperature, range	-570 °C
RoHS complia	ant	Yes
Minimum Ber	nd Radius - During Installation (under Tension)	130 mm
Minimum Ber	nd Radius - Installed	86 mm
